

**ABSTRACT OF THE DISCLOSURE**

5           A document displaying system for facilitating easy access to  
documents being displayed. The document displaying system  
includes a support assembly having a backing member selectively  
couplable to a vertical support surface; a frame assembly  
operationally couplable to the support assembly; a transparent  
10 cover member operationally couplable to the frame assembly, and  
abutting a perimeter edge of the transparent cover member; and a  
pair of magnetic coupling members for selectively operationally  
securing the transparent cover member to the support assembly.
